The household is every family or other community of persons (multi-person household), that is a group of two or more persons who combine to occupy the whole or part of a housing unit and provide themselves with food and possibly other essentials for living. Members of the group may pool their incomes to a greater or lesser extent.

The household is every person who lives alone ("one-person household") that is a person who lives alone in a separate housing unit or who occupies, as a lodger, a separate room (or rooms) of a housing unit but does not join with any other occupants of the housing unit to form a part of a multi-person household.

Family is a community of persons who are related as husband and wife (married couple) or partners in informal union, as well as a parents (one or both) and their children.

Child (refers to a blood, step or adopted child) is a person who, regardless of age or marital status, has usual residence in the household of at least one of the parents, and who has no married/informal union partner or own child in such a household.

Members of household shall be enumerated as follows: first the head of household (head of household shall not be considered person who resides abroad more than a year), then the members of his/her nucleus family (spouse and children, if any). If several nucleus families live in the same household, first the members of one nucleus family shall be enumerated and then the members of the other nucleus family, etc.

Then, the relatives and non-relatives considered household members shall be enumerated.

After enumeration of all household members, the temporarily present persons shall be enumerated.

Temporarily present person is a person who has a usual place of residence in another settlement in BiH or abroad (where he/she has own household), but who stays in the place of census due to work, study or some other reason).
