116	5. EXAMPLE OF COMPLETED ANNUAL CENSUS FORM

This manual will provide you with all the information you need to know to carry out your job as an interviewer during the census. You will play a major part in the Census operation, as an interviewer. We rely on your ability to ask all the questions properly and to get the right answers. By doing this well, you will help greatly to make the Census a success.

INTRODUCTION

SECTION ONE

**WELCOME TO
OUR CENSUS TEAM**

We also expect that you will respect the confidential (private) nature of the work you will do, and not discuss the answers you get with anyone outside of the Official Census Organization.

Make sure that you read this manual carefully. If you do not understand any part of the manual, ask your trainer or your supervisor to explain it to you.

Remember. Carry this manual with you during the census because it will help you especially for calculating ages, and working out language groups.

You have been recruited to work as an interviewer and your main job is to ASK THE CENSUS QUESTIONS of people in Papua New Guinea USING THE CENSUS QUESTIONNAIRE. However, the way in which you do this varies depending on whether you are working in a rural village, a rural non village, or an urban area.

THE JOB OF THE INTERVIEWER

SECTION TWO
