Protect the integrity and security of data entrusted by national statistical offices

DATA USAGE

- Prospective user registrations are reviewed by IPUMS for credible research, policy, or statistical affiliation and purpose
- Users include researchers, students, educators, policy makers, government agencies, NGOs
- International agency users and partners
- Wide range of social science and health disciplines

IPUMS provides users with more than just microdata.

- Web-based variable and sample-level documentation
- Integrated data with harmonized variables
- Customized datasets formatted for Stata, R, SPSS, or CSV

Enhanced online tools make research efficient and effective.

- Online tabulator
- Geographic shapefiles
- Complex calculated variables
- User support and training in-person & online

CONTRIBUTIONS TO THE GLOBAL COMMUNITY

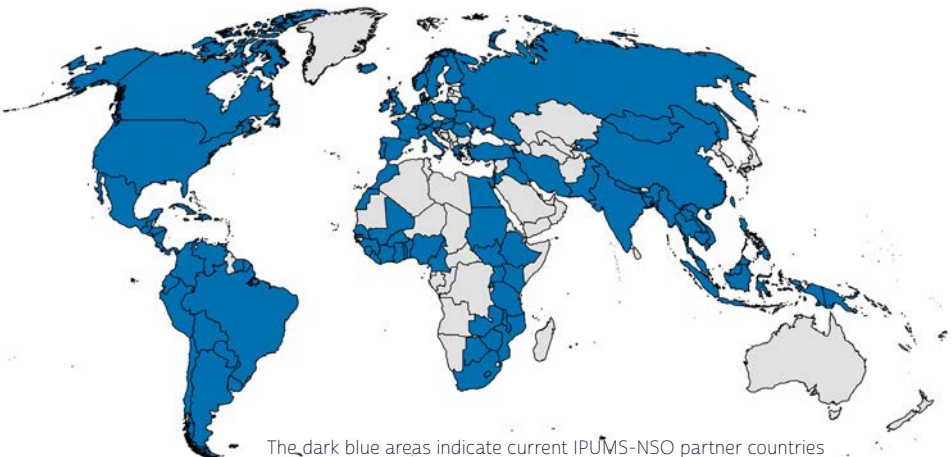

IPUMS NSO partners are recognized for increasing access and opportunities for researchers, scholars, and policy makers.

- Facilitation of high-quality research, trend analysis, and evidence-based policy-making
- Increased access and opportunities for policy makers, researchers, and scholars
- Support for SDG monitoring and research

BENEFITS TO THE NATIONAL STATISTICAL OFFICES & COUNTRY

Disseminating data via IPUMS increases and broadens the use of the NSO's country data.

- Increased use of your country's data
- Best practices in data sharing
- Data processing provided by IPUMS at no cost to the national statistical organization
- Long-term data preservation with archival best practices
- International conference opportunities

The dark blue areas indicate current IPUMS-NSO partner countries
